PROJECTS

FARMWORKS - Link | Github

20 February, 2023 - 28 February, 2023

- Developed a one-stop site for **farmers to connect with laborers.**
- Farmers and Contractors can **post** their **job details** like completion days, job descriptions, and other information in **MongoDB** database.
- Users are verified using their **aadhar number**
- To stop the **exploitation** of laborers by farmers, the **pay range** is set according to **completion days** and **minimum wages** set by **Govt. of India**
- **Tech used: React.js, Tailwind CSS, React-Router-Dom, Axios, Node.js, Express.js, Mongoose, JWT and MongoDB**

CRYPTOBASE APP - Link | Github

15 January, 2023 - 20 January, 2023

- Developed a crypto data web app that lets you see the current market rates of a cryptocurrency with a **responsive design.**
- Proper **file and folder structure** is created such as pages, context, and components.
- Users can add cryptocurrency to their **watchlist** by signing up with **google Firebase**.
- Data is stored in **Firebase Firestore database** and for each user, a single watchlist is created.
- **Tech used: React.js, React-Router-Dom, Tailwind CSS, CoinGecko API, Firebase, and Axios**

ACHIEVEMENTS

- ✅ Got certified from Amazon by passing AWS Certified Cloud Practitioner Exam - Link
- ✅ Solved over 300+ DSA problems at differnet coding platforms - LeetCode, GeeksForGeeks
- ✅ **First Runner Up** in national level hackathon organized by **IIIT Bhubaneswar**

SKILLS

- Java
- Javascript
- React.js
- Node.js
- Express.js
- Tailwind CSS
- Git | Github
- MySQL
- MongoDB
- Mongoose
- AWS
- jQuery
